

Remarks

The examiner's notification of prospective allowance of all claims is noted with appreciation.

The "informalities" in the claims have been corrected by this amendment. Claim 8 has been altered to depend from claim 7 to provide the required antecedent basis therein and in dependent claim 9.

In the specification, the paragraph extending from lines 7-19 on page 4 has been amended (in the penultimate line) to correct the reference for the reflector from '16' to -22-.

The paragraph extending from lines 9-15 on page 7 has been changed to correct references '77' to 76, and '58' to 46, to insert -base- before 'portion' for consistency with the term used on Page 6, line 10, and to correct the spelling of electric.

In the drawings, reference '3' has been omitted from figure 1 as not referred to in the specification. A copy of the originally filed drawing showing the correction is attached together with a copy of the replacement sheet for the examiners information.

Further favorable consideration of the application is requested.

A one month extension of time for replying to the outstanding office action is requested. Small entity status is now claimed, and authorization is given to deduct the extension fee of \$55 from deposit account 21 0760 of the undersigned.

Respectfully submitted,
